

## About Course Content

The Content tool is used to store course content such as the course syllabus, lecture notes, and readings. View course content by clicking the **Content** link on your Course Home navigation bar.

The Course Content page displays.

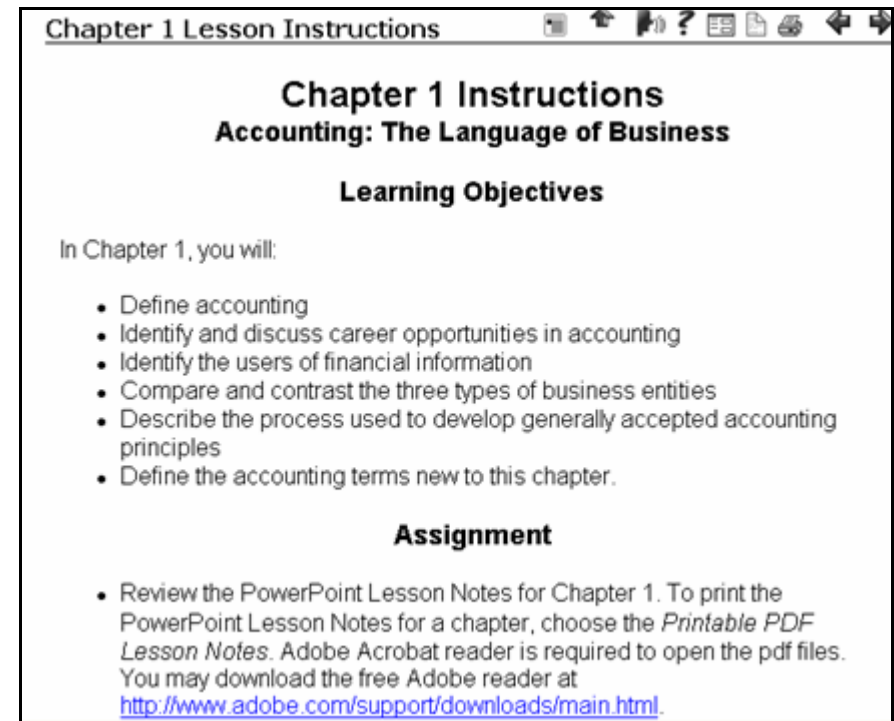

**Note** Access to this area is dependent on the permissions set up for you by your organization or instructor.

**Note** Your instructor may have defined a specific learning path for your course. If this is the case, some content areas will only be available to you once you have completed prerequisite sections or assignments.

## Viewing Course Content

From the Course Content page, click the title link for the course content topic you want to open.

The Content page displays.

## Course Content options

Use the tool bar at the top of a Content page to:

Icon	Option	Description
	Show/Hide TOC	Show/Hide the Table of Contents on the left of the screen.
	Unlock this topic	Open content frame in a separate window.
	Discuss this topic	If a discussion has been created on this topic, you will be taken directly to this discussion.
	Get help on this topic	Get help on a topic (currently not in use).
	Give feedback on this topic	Leave anonymous feedback on a topic.
	Bookmark this topic	Bookmark the current topic so you can come back and view it easily. You can only have one topic per course bookmarked at a time.
	Print this topic	Print the current topic.
	Previous topic / Next topic	Navigate back and forth between content topics.

Use the Table of Contents menu on the left side of the page to navigate to related topics.
