

Advising Sheet for Technical Certificate: Photography

Fall Semester

| 1 st Seven Weeks | 2 nd Seven Weeks |
|--|---|
| COM 1110 Intro to Visual Communications | COM 2240 Digital Imaging II |
| PHO 1110 Digital Photography I <i>Old course name: Basic Photography</i> | Technical Elective (PHO or COM course not listed as a required course) |
| Com 1230 Digital Imaging I | |

Spring Semester

| 1 st Seven Weeks | 2 nd Seven Weeks |
|--|--|
| PHO 1170 Business for Photographers | PHO 1490 Digital Photography II <i>Old course name: Advanced Digital Photography</i> |
| PHO 1240 Lighting I | Technical Elective (PHO or COM course not listed as a required course) |
| COM 2010 Digital Video I | |

This is the recommended full-time schedule for students who wish to complete the Certificate in two semesters. Students who wish to take fewer than 5 courses per semester and take longer to complete the technical certificate should consult with their faculty advisor for the optimal course sequence.

All required courses for the technical certificate will also apply to the AAS Visual Communications with a concentration in Photography. Students who wish to complete both the certificate and the degree should choose technical electives that will also apply to the AAS degree.
