Nashville State Community College

Accessing Class Climate Surveys

How to view Class Climate survey reports in D2L and add the Class Climate tool to a course.

Office of Online Learning

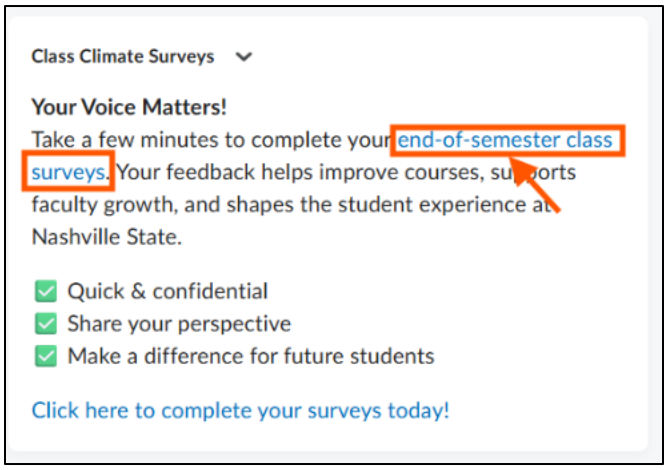

Last Updated 11/3/2026

View Your Class Climate Surveys Reports

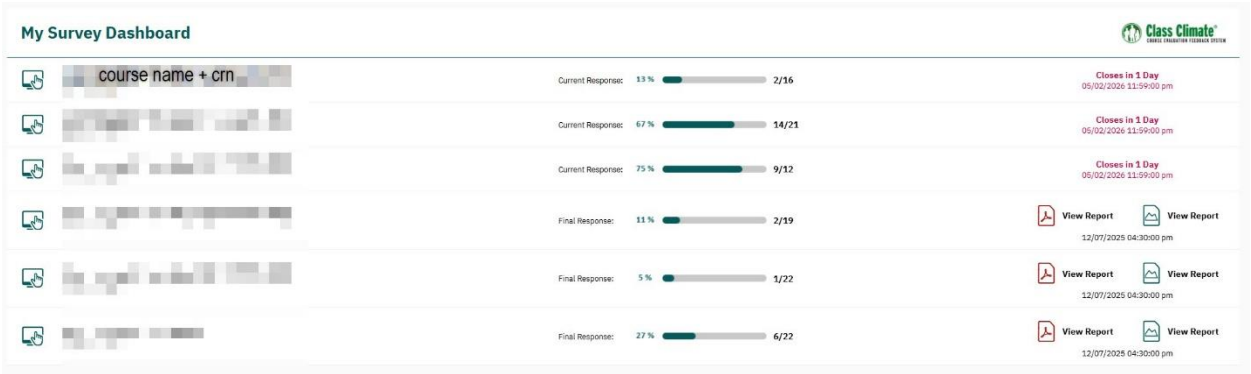

1. Select the **Home** icon in your D2L navbar to go to **My Home**.

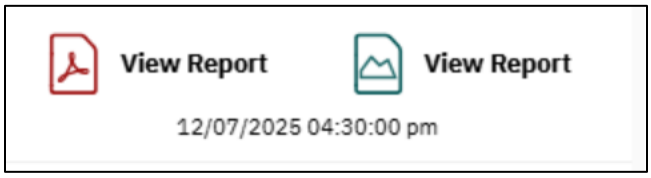

2. Scroll down to the Class Climate widget and select the “end-of-semester class surveys” link. While surveys are open, the link may also appear in a **News** item.

3. **My Survey Dashboard** opens. It shows current response rates for open surveys and reports for surveys that have closed.

4. Find the course, then select **View Report** next to the PDF icon to download the report.

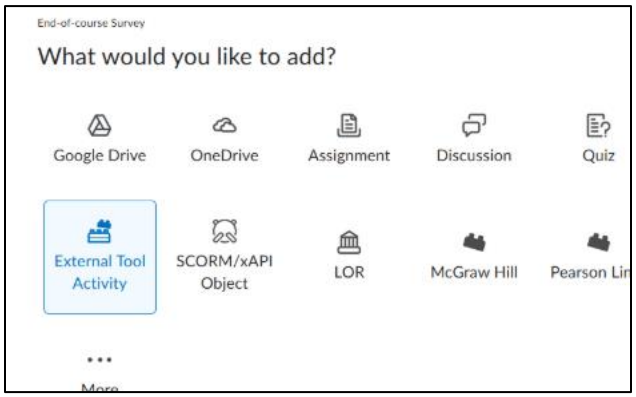

Add Class Climate to Your Course

1. **Open Content,** select **New Unit,** and name it “End-of-Course Survey”.

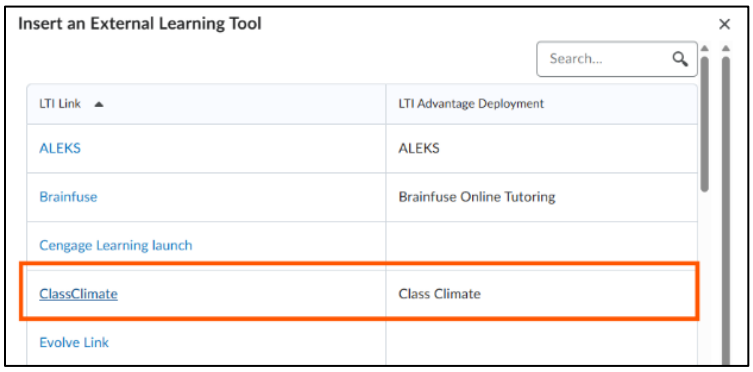

2. Select **Add Existing**, then select **External Tool Activity**.

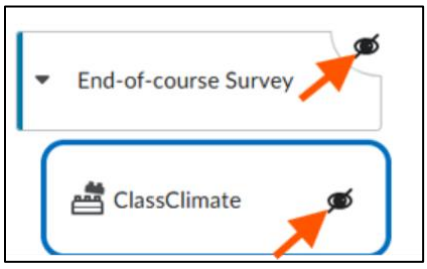

3. In the **Insert an External Learning Tool** window, select **ClassClimate.**

4. Make the unit and the **ClassClimate** activity link visible to students. An eye icon with a line though it means the item is hidden.

5. When you open the activity, you see your list of reports. Students see their own survey dashboard with a link to each course survey, as shown below.
