## Installing Verity for Students

YuJa Verity is a virtual test proctoring tool used at Nashville State Community College. In some courses, your instructor may require you to use Verity for tests or quizzes. This guide will help you check your system requirements, install the browser extension, set up the desktop lockdown app, and get ready for your proctored exams. YuJa also provides some [helpful articles for students](#) and please review the [FAQs for Verity](#).

Depending on the settings for a proctored test, you may need to install a YuJa Verity extension in your Chrome browser, or download the YuJa Verity application, or both, depending on the setting requirements generated by your instructor. We recommend you install both options on a computer you plan to use to take these proctored exams. You will also need to have a camera and microphone to take most proctored exams. If you have issues with installing or using YuJa Verity, please contact your instructor immediately and [contact YuJa support](#).

**If you've already completed the setup for Verity, proceed to the [section on taking a proctored exam](#).**

### System Requirements for YuJa Verity

Before installing, please check the [system requirements for YuJa Verity](#) for Windows, Mac, Chrome OS, and Linux. Verity currently supports Chrome, Edge, Brave, and Opera. You will need to download the [Verity Browser Extension](#).

### Downloading the Extension inside D2L

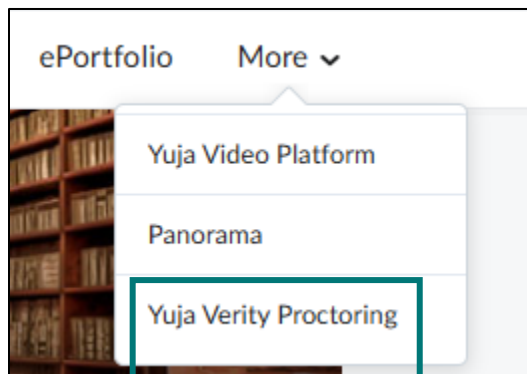

#### Step 1:

Start by logging into your D2L and navigate to your course.

#### Step 2:

From the course navigation bar, click the YuJa Verity Proctoring option.

**Note:** If you cannot locate the YuJa Verity Proctoring link in your course, reach out to your instructor.

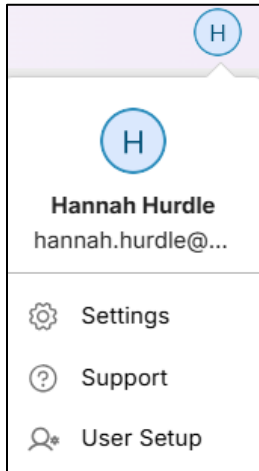

#### Step 3:

In the Yuja Verity window, navigate to the circle icon in the top right corner of your screen. This icon is the letter of your first name.

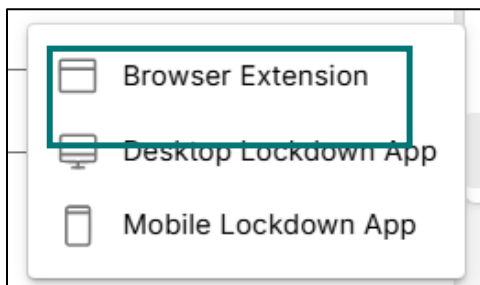

**Step 4:**

Select the User Setup option. Also note that the support link is also located in this dropdown if you need to contact Yuja Support at any time.

**Step 5:**

From the provided list, select Browser Extension.

**Step 6:**

Click on the Download Extension button

## Set Up Your YuJa Verity Test Proctoring Experience

Follow the steps below to help you get started.

**Supported Browser**  
 You are on a supported browser.

**2 Download the Browser Extension**  
 Download the Verity Browser Extension from the Chrome Web Store.
 

Download Extension

**3 You're All Set!**  
 You can click the button below to go to your assessments.
 

Assessments

### Step 7:

Click on the Add to Chrome button to add the extension to your browser.

Search extensions and themes

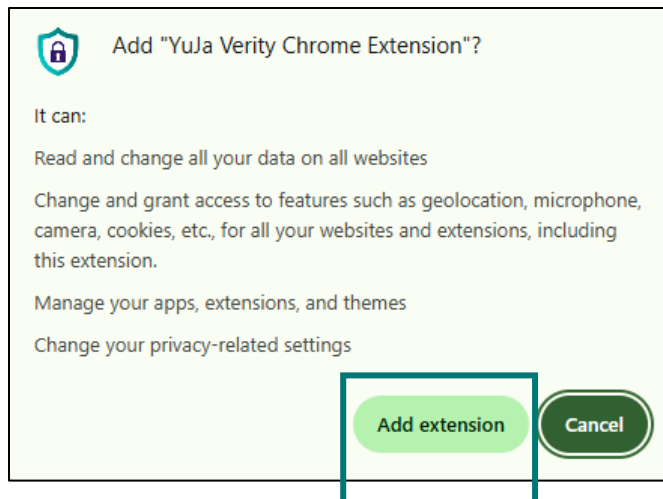

**YuJa Verity Chrome Extension**  
 1.1 ★ (39 ratings) [Share](#)  
 Extension Workflow & Planning 40,000 users

Add to Chrome

### Step 8:

A pop-up window will appear on your screen. Click on the Add Extension button.

**Note:** It may take a moment for the extension to download.

### Step 9:

Navigate back to D2L

## Downloading the Browser Extension to Chrome (Optional Alternate Method)

### Step 1:

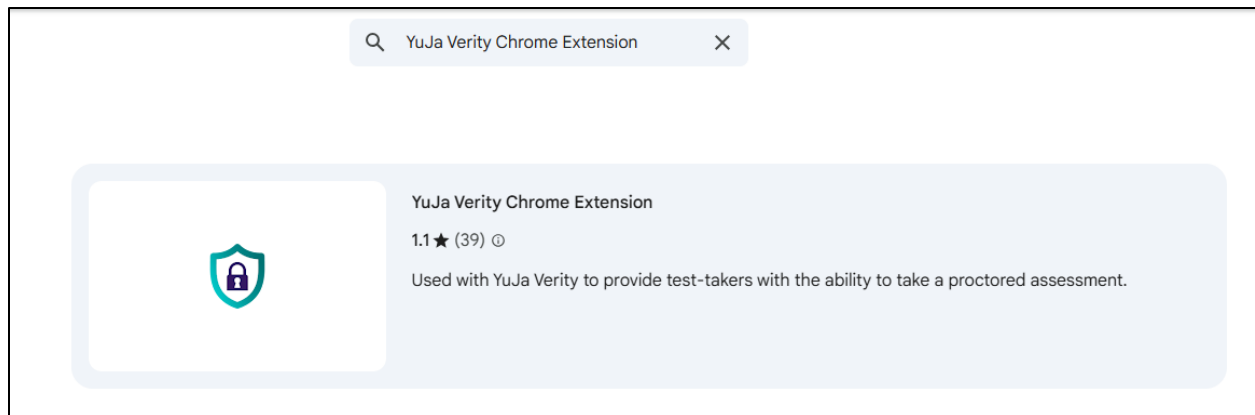

Launch the Chrome Browser and navigate to the [Chrome Web Store](#).

### Step 2:

In the search bar, enter YuJa Verity Chrome Extension.

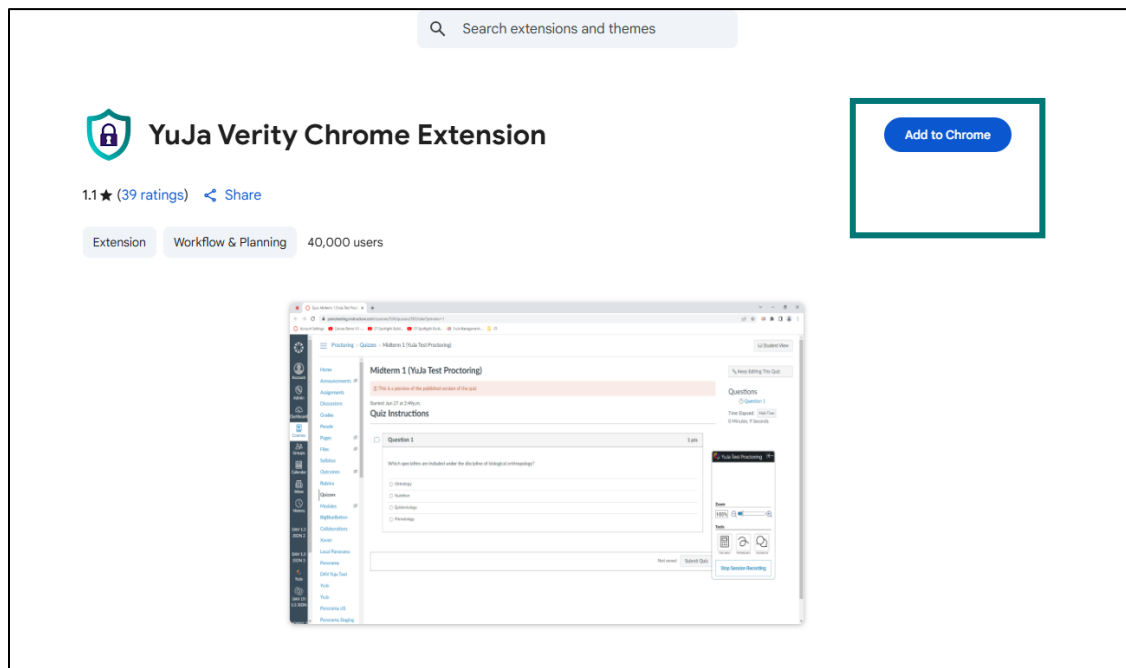

### Step 3:

Select the YuJa Verity Chrome Extension

#### Step 4:

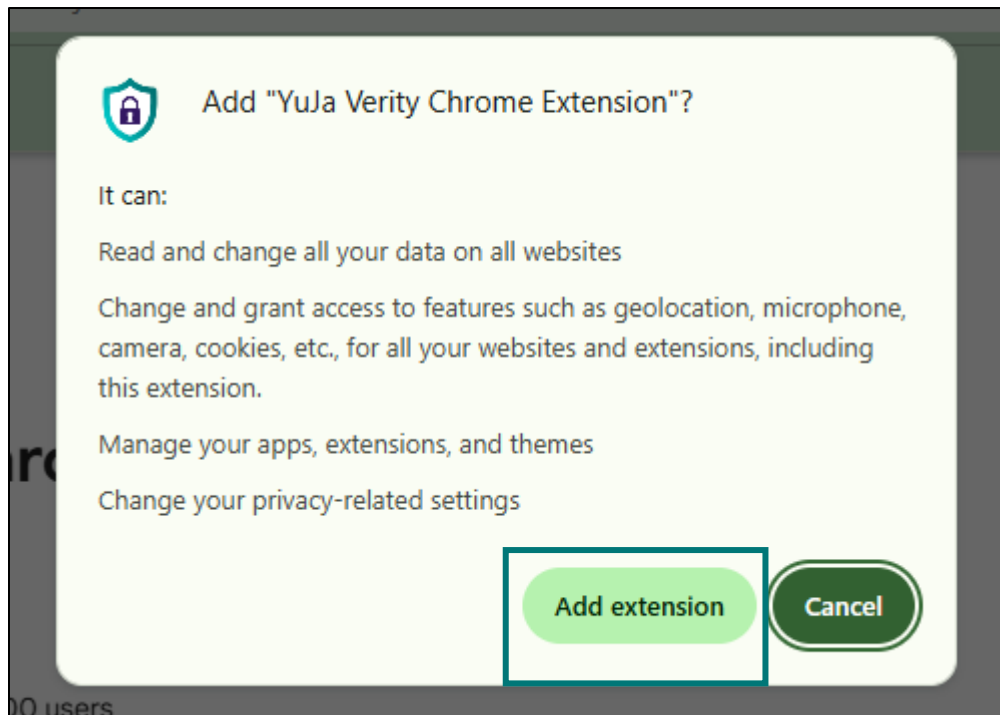

Click on the blue Add to Chrome button

#### Step 5:

A pop-up window will open. Click on the green Add extension button.

**Note:** It may take a moment for the extension to download.

## Downloading the Verity Desktop Lockdown App

### Step 1:

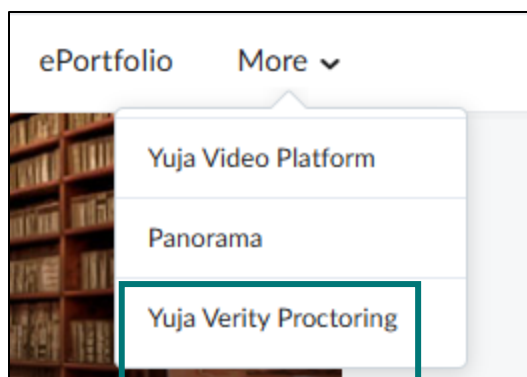

Start by logging into your D2L and navigate to your course.

### Step 2:

From the course navigation bar, click the YuJa Verity Proctoring option.

**Note:** If you cannot locate the YuJa Verity Proctoring link in your course, reach out to your instructor.

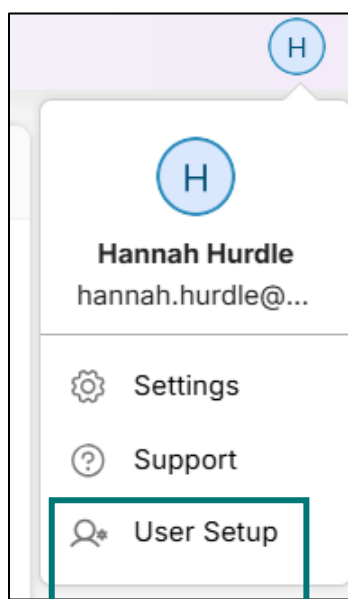

**Step 3:**

Navigate and click on the circle icon in the top right corner of your screen. This icon is the letter of your first name.

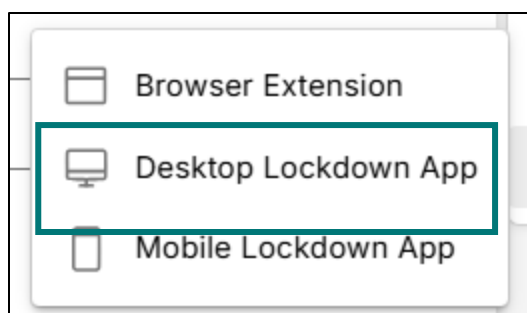

**Step 4:**

Select the User Setup option. Also note that the support link is also located in this dropdown if you need to contact Yuja Support at any time.

**Step 5:**

From the provided list, select Desktop Lockdown App.

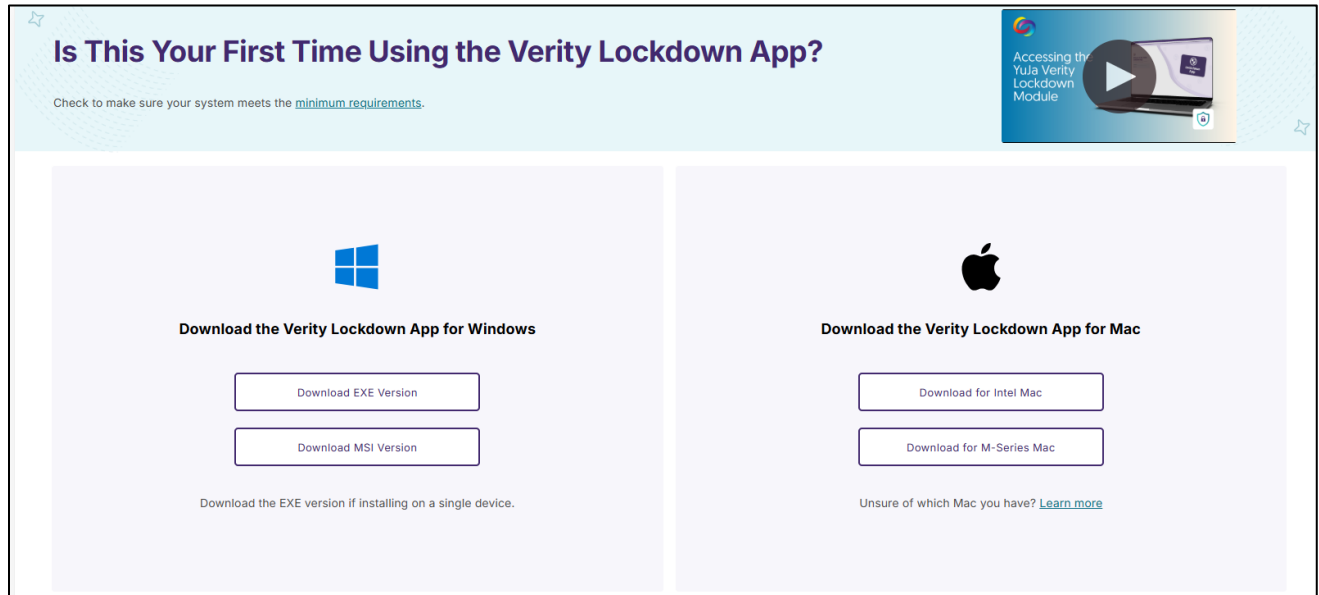

### Step 6:

Download the Verity Lockdown App for either Windows or Mac.

Windows: Click Download EXE Version if you're installing if you want to install on one device. Click on the Download MSI Version if you want to install the Lockdown App on multiple devices at the same time.

Mac: Download for Intel Mac or Mac-Series mac.

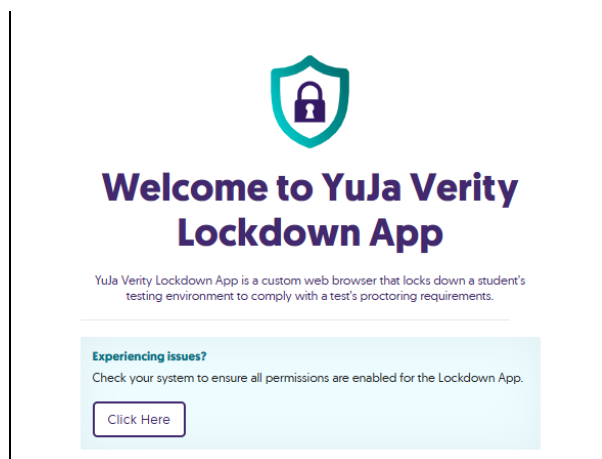

### Step 7:

Navigate to your device's recent download history and select Verity Lockdown Setup.

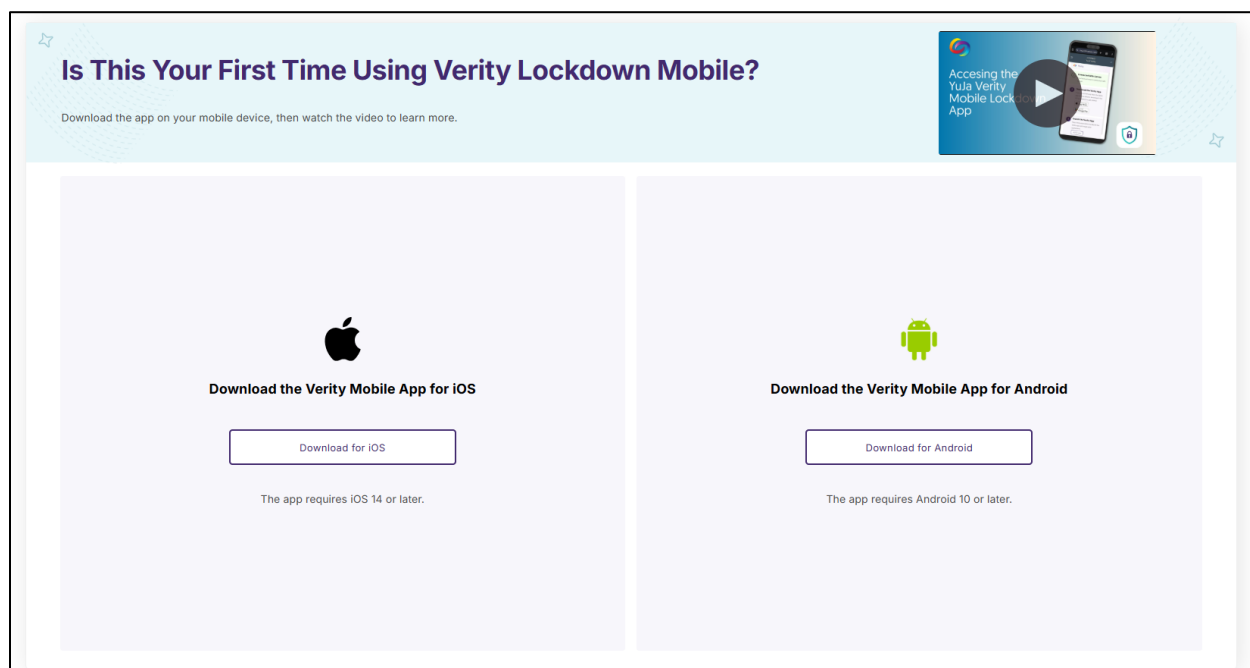

### Step 8:

After the Verity Desktop Lockdown App finishes installing, the app should open in a new window on your device.

## YuJa Verity Mobile App (Optional)

You can also download a mobile version of the app on an Apple or Android device by following steps 1-4 and selecting Mobile Lockdown App from the provided list. The mobile app option is only available if the instructor allows this in the proctor settings.

## Taking a Verity Proctored Exam

To start your proctored assessment, you will need to access your D2L course, through [Verity Lockdown](#) or using the [Verity Browser Extension](#) in a supported browser.

Before you can access the assessment in Verity, please make sure you have [downloaded the Verity Browser Extension](#) and are [authenticated on Verity](#).

**Important:** If you're using a Chromebook, please ensure you're on a managed guest session set up by your institution. Otherwise, please use a Windows or Mac device.
