

08-17-00 Computer Security Awareness Policy

PURPOSE

The purpose of this policy is to establish executive administration authorization to conduct Security and Privacy Awareness training for faculty and staff.

DEFINITIONS

Security and Privacy Awareness training consists of a curriculum of modules that cover best practices for password construction and handling, computer use, training in the techniques of hackers including phishing, vishing, spear phishing, malware, spyware, ransomware, and ways to recognize and avoid computer-based threats.

POLICY/GUIDELINE

The Technology Services Division will conduct Security and Privacy Awareness training for the college in monthly segments.
